Dear Levent Arslan,

I'm Mrs. Ilaria Rudisi, project manager of OPUS, an Italian association who is developing the European Academy of Cinema.

OPUS is looking for prospective partners to submit Erasmus+ KA2 small cooperation partnership grants.

We found you on Salto platform and we believe we could create a synergy to succeed in the application.

Before letting you go in depth into the project as described in this email, I would ask you if we can manage a quick video call to understand if and how we can cooperate. Our partner should help us develop the project, replicate the model in other EU States and find students to be enrolled in the academy.

THE PROJECT

The organisation aims to develop a cinema school based on the theatre academy model and based on cultural integration of participants.

The project consists in the establishment of a film academy based on a theatrical approach, which trained young people in the artistic-cultural and creative sector. Academy will be a reference point for students' development based on strong values such as: inclusion and digital transition to face the news skills required in the future to young artists.

In today's cultural landscape there are few realities where to receive a really theatrical and cinematographic training, since many schools take advantage of the hopes and lack of information of the attendees and rarely offer them truly formative experience with a future prospective and rarely offer a way to support their development as persons and professionals.

In Italy it is becoming increasingly difficult to find a point of reference that is not the "exclusive" one of the great national schools. The idea of this project stems from the need to meet the needs of a student actor, responding to the needs of developing firsthand experiences based on developed skills and meritocracy.

Indeed, our goal is to create an academy format to be exported to other European cities, stimulating culture, inclusion and creativity through acting as a means of education, cultural and artistic exchange.

The academy follows the following topics:

- Voice
- Singing
- Improvisation
- Stage performance
- Drama
- Movie
- Elocution

Hope to hear from you soon,

Ilaria
